

Please Note:

This Dejarik Holochess 3D model is provided for the sole purpose of personal enjoyment. The copying, reproduction, use, distribution, transfer, publishing, sale or offer to sell, at an auction or otherwise, or any other act of similar kind, of this model for commercial purposes, or purposes anyway related to making profit, is strictly prohibited (*except for the exceptions described below). You have the right to distribute the 3D model unmodified and without removing the accompanying text documents as long as it remains free of charge and you have the right to modify the 3D model as you wish just as long it is for your own personal use but you cannot distribute it modified without permission from me A. David Guzmán - PixelOz. Credit to PixelOz Designs and A. David Guzmán for the creation of the model must remain in all distributions, in any format.

You may make the 3D model available for download on your web site free of charge via a link to the original zip file on the addresses in which I officially distribute it (in DeviantArt and Mediafire), or by placing the original zip file on your own server, and linking to the unaltered file on your server. You may not offer this 3D model as a bonus in any legal promotion cause the original Dejarik Holochess design belongs to Lucasfilm LTD and The Walt Disney Company.

This 3D model is a fan-art labor of love that I A. David Guzmán - PixelOz did as a gift to the community of computer users and Star Wars fans like me and it belongs in part to them too, and in addition to that the original design of the Dejarik Holochess table belongs to Lucasfilm LTD as I already mentioned to begin with. Please do not claim that the 3D model was created by you, we 3D modelers give these designs for free to the people without asking anything in exchange for them and their creation is many times very time consuming, please respect that and keep this 3D model free as I intended.

* You have my permission to use this 3D model in a commercial project (a game for example) or an animation, an interactive demo or anything similar but you have to credit me for its creation if you do so but you cannot profit in any way from the selling of the 3D model itself as a 3D model resource directly and again remember that you still have to obtain permission from Lucasfilm LTD to do so and/or pay their charges even if I grant you permission to use my model because the original design of the Dejarik Holochess table still belongs to them anyway.
